We highlight:

Impeccable sea view - Due to its elevated position and proximity to the sea, the views are stunning and we guarantee that they will not be obstructed over time.

Quality Construction - Everything has been designed to offer an exceptional build quality: heat pump heated floors; air conditioning; double walls and slabs with thermal and acoustic insulation; aluminium windows and doors (2.1 m high) with thermal cut-out and double glazing; electric shutters; thermal insulation in the water and ventilation system; Wardrobes; LED lighting, home automation; and kitchen equipped with top-of-the-range appliances.

Basement with parking lots already defined for all apartments and storage spaces.

Swimming pool shared only with the residents, in a very nice and private area.

Real Easy and João Soeiro know this area very well and the company responsible for the construction of the apartments. We are available to answer any questions and we unreservedly recommend the quality of this development.

Note: The images shown are of different types: photographs, 3D models and photos with virtual staging.
